Catalog No. SPBAL600R

Description: PBII BELL ALARM WITH LOCKOUT 600V

UPC No 783164073096

Home > Circuit Breakers > Accessories

The bell alarm with lockout module combines both the bell alram and a manual lockout function. The bell alarm switch provides remote indication of whether the circuit breaker has been tripped via open or closed SPDT switch elements, but remains unchanged during "On/Off" circuit breaker operation and during operation by the push to trip button. Upon occurrence of a trip event, a mechanical pop-out target must be manually reset before the breaker can be reclosed.
