Description: POWER SUPPLY ASSEMBLY

UPC No 783175184521

Home > Circuit Breakers > Accessories

The Power Supply Assembly is used to provide +24 Vdc control power to Spectra RMS Molded Case Circuit Breakers with MicroVersaTrip Plus and MicroVersaTrip PM trip systems via the Distribution Cable System. The assembly requires a minimum input voltage of 85 Vac to operate properly (the maximum voltage rating is 240 Vac.) Supplemental +24 Vdc input terminals are provided for backup control power applications. The input must be fused with 1/2 amp class CC fuses (not included). Not suitable for 400 Hz.
