## Catalog No. THQLLX1

**Description: PM GOLD GENERATOR INTERLOCK KIT**

**UPC No 783164400342**

**Home > Circuit Breakers > Residential Circuit Breakers > Generator Interlock Kit**

The Generator Interlock Kit is used to prevent the panel from being energized by both the utilith and generator power at the same time. It ensures that either the Main Breaker (utility supplied) or branch-mounted Generator input breaker are open at all times.
